

WASH AND CARE

Highly effective cleaning concentrate based on natural ingredients – for regular damp cleaning and care!

8016 Clear

PRODUCT DESCRIPTION

Special clear for daily cleaning and care – especially developed for oiled and waxed wooden floorings. It contains soap based on natural oils. The wood does not dry up while cleaning. Using the product regularly, Wash and Care helps to form an easy to maintain, slide resistant surface. The water-soluble ingredients reduce the formation of streaks and do not form a film. Especially skin-compatible, free from colouring agents and fragrances, biodegradable, without solvents, emissionfree and therefore offering the possibility of healthy living.

RECOMMENDED USE

Osmo Wash and Care is especially recommended for the cleaning and care of oiled and waxed floorings. Furthermore suitable for furniture, doors and panelling.

INGREDIENTS

Based on natural vegetable oils; 5-15 % vegetable soaps (anionic tensides); <5 % non-ionic tensides; care components, set-up agents and preservatives (METHYLCHLOROISOTHIAZOLINONES, METHYLISOTHIAZOLINONES).

TECHNICAL DATA

Specific gravity: 1.01-1.03 g/cm³
Odour: Faint/mild, odourless after drying
pH-value (20 °C): 10.9

STORAGE

5 years and more if can is kept dry and tightly closed.

SURFACE PREPARATION

We recommend dry cleaning with the Osmo dust mop, a commercial vacuum cleaner or brush for the removal of loose dirt.

METHODS OF APPLICATION

Manually: Wash and Care is ideal for using the Osmo Opti-Set (dust mop). Add water to the Osmo wash and care. Damp mop the floor (not wet). Immediately mop afterwards. When used on a regular basis the surface gets resistant against dirt and sign of wear.

Mechanically: Wash and Care is also ideal for a mechanical treatment (dosage mechanical treatment Wash and Care/water 1:1) Osmo recommends to use the single discmaschine FloorXcenter. Even stubborn dirt can be removed with the various tools.

Loosen dirt (approximately 10 m²)

White pad: loosen common household dirt

Brushing ring: loose stubborn dirt down to the pores

Red pad: loosens extremely stubborn dirt (a re-oiling is recommended)

After having loosened the dirt, soak up the dirt with a micro-fibre pad. Repeat procedure until the entire surface is clean. Please find more information in our product information FloorXcenter.

COVERAGE

One closing cap of Wash and Care per one litre of water. For a more intensive degree of pollution or for mechanical use the dosage can be raised to mixing ratio 1:1.

NOTE

For the specific removal of especially rough stains and the occasional, intensive refreshing of waxed and oiled floorings we recommend the Osmo Liquid Wax Cleaner which is based on natural vegetable oils and waxes (undiluted application with the Osmo Opt-Set Active Fibre Cloth). For a full renovation we recommend the Osmo Polyx®-Oil Original.

CAUTION

Keep out of the reach of children.

If swallowed, seek medical advice immediately and show the container or label.

DISPOSAL

Dispose of product residuals and completely emptied containers according to the local official guidelines (EU-waste code key number 07 06 01). Only fully emptied containers can be recycled.

COLOUR TONE

Nr. 8016 Clear
